

CHARTER CHATTER

EMBRACING A SPIRIT OF COMMUNITY

PTO AND TRACK ATTACK!

What an incredible day!

The final numbers for Track Attack are not available yet, but we did exceed the goal of \$15,000. This is a great accomplishment for our students, staff and Lincoln Charter School family. If you have pictures from the event that you would like to share with the school, please drop them off at the front office on a disk or flash drive.

Thanks again for your continued support!

A family with three children would pay \$7 for all three children to wear blue jeans to support the first grade technology initiative.

LINCOLN CHARTER 1:1

We are very excited to announce that we are ready to pass out high school student laptops for the official roll out of our Lincoln Charter 1:1 program (meaning that each HS student will receive a laptop). This program makes us a technology pioneer in Lincoln County and establishes LCS as one of the few schools in our area that have made a commitment to 1:1 computing. This program will serve to give your student 24/7 access to mobile learning.

Specifically, we feel that this program will help us to accomplish several long term goals:

- Instructors will adapt and improve learning environments to realize the benefits of one-to-one computing and technology
- Increase student achievement, engagement, and ability in order to meet the demands of the world they enter upon graduation
- Create and support equitable opportunities for student learning through the use of technology - as an extension of the classroom
