P 704-483-6611  
F 704-483-1039

Since opening in 1998, Lincoln Charter School has become one of the largest and most sought-after charter schools in North Carolina. Parents and students from nine North Carolina counties have been attracted to the school because of a specialized design that ensures student success. Lincoln Charter School's programs are founded on the "Small High School" research championed by the Gates Foundation. Results show small schools produce better discipline and better academic results. By offering individualized student attention, college prep courses and requiring community service credits for each grade level, we attract self-motivated students who are eager to succeed in school. With each passing year, as students who have enrolled for a longer period of time age into our high school, we find our students are now surpassing the scores of other public school students on state testing and are capturing the attention of college recruiters.
